1. Executive Summary

What We're Building

The Profile & Settings section is the **User Command Center** — where users view and manage their Ayurvedic profile, track their constitutional journey, control app settings, connect with practitioners, and manage their account. It answers the fundamental question: "*Who am I constitutionally, how am I evolving, and how do I control my experience?*"

This isn't a basic settings page buried in the app. It's the identity center that:

Dimension	What We Offer	Why It Matters
Constitutional Identity	Prakriti and Vikriti are central, not hidden	User's constitution IS their identity in Ayurveda
Twin Integration	Even settings feel guided and	Consistency with app experience
Journey Tracking	Show constitutional evolution over	Progress is motivating and informative
Privacy Control	Users control their data with	Trust through transparency and control
Practitioner Ready	Easy connection to Ayurvedic practitioners	Bridge digital and professional guidance
Accessibility	Settings for all user needs and	Inclusive design for everyone

Why It Matters

In most apps, the profile/settings section is an afterthought — a dumping ground for toggles and account info. But in AyuAware, your Ayurvedic constitution IS your identity. Your Prakriti (birth constitution) is permanent; your Vikriti (current state) is the dynamic picture of your health journey.

Users need to see their constitutional data prominently, understand how they're evolving, and feel in control of their experience. This section should make users feel deeply understood while giving them the power to customize everything.

Key Differentiator

Generic health app profile: "John Doe. Email. Notifications: On/Off. Weight: 175 lbs. Log out."

AyuAware Profile: "Good evening, Nikhel! You've been on your Ayurvedic journey for 47 days. Your Vata has decreased 12% since we started — great progress! Your Prakriti is Pitta-Vata (55/30/15), which means you have sharp intellect and drive, but need to watch for stress and sleep issues. Your current Vikriti shows elevated Vata (+15%), which your Nidra Protocol is addressing. Here's how you've evolved over time..."

Constitutional identity. Journey awareness. Twin-guided. Full control.

2.2 Constitutional Assessment Types

Prakriti (Birth Constitution):

- Assessed once during onboarding
- Does not change (represents inherent nature)
- Determines baseline dosha percentages
- Informs all personalization throughout app

Vikriti (Current State):

- Assessed periodically (recommended monthly)
- Changes based on lifestyle, season, health
- Shows current dosha percentages vs. baseline
- Identifies imbalances needing attention

Assessment History:

- Timeline of all Vikriti assessments

- Graph showing dosha changes over time
- Correlation with protocols and interventions
- Progress tracking and trend analysis

2.3 Settings Categories

Notification Types:

Category	Examples	Defaul t
Daily Reminders	Morning check-in, evening wind-down	ON
Meal Reminders	Optimal eating times based on Agni	ON
Supplement Reminders	Stack timing alerts	ON
Protocol Reminders	Active protocol tasks	ON
Insights & Updates	Weekly insights, seasonal alerts	ON
Email	Weekly digest, monthly report	ON
Quiet Hours	No notifications during sleep	ON

Health Goals:

Goal Category	Options
Primary Focus	Sleep, Energy, Weight, Stress, Digestion, Clarity, Balance
Sleep	Target duration (6-9 hours), target bedtime
Weight	Maintain, Lose, Gain, Not focusing
Activity	Sedentary to Very Active, frequency goal

Nutrition Preferences:

Preference	Options
Diet Type	No restrictions, Vegetarian, Vegan, Pescatarian, Flexitarian
Allergies	Dairy, Gluten, Nuts, Soy, Eggs, Shellfish, Other
Food Likes	User-defined favorites
Food Dislikes	User-defined exclusions
Ayurvedic Style	Food combining, Seasonal eating, Dosha-balancing, Agni timing

2.4 Integration Types

Supported Wearables:

Device	Data Types

Apple Watch	Heart rate, HRV, sleep, activity, workouts
Oura Ring	Sleep, HRV, readiness, activity
Whoop	Strain, recovery, sleep, HRV
Fitbit	Sleep, activity, heart rate
Garmin	Activity, sleep, stress, heart rate
Eight Sleep	Sleep temperature, sleep stages

Health App Integrations:

App	Data Types
Apple Health	Aggregated health data
Google Fit	Activity, sleep
MyFitnessPal	Nutrition logging

2.5 Design Philosophy

Constitutional Identity The user's Prakriti and Vikriti are central to their profile, not hidden in settings. This IS their Ayurvedic identity.

Twin Integration Even settings feel guided and personalized. The Twin explains why settings matter and helps users configure appropriately.

Journey Tracking Show constitutional evolution over time. Users see their progress, which motivates continued engagement.

Privacy Control Users control their data with full transparency. Clear explanations of what data is collected and why.

Practitioner Ready Easy connection to Ayurvedic practitioners. Bridge between AI guidance and professional oversight.

3. User Journey Breakdown

3.1 Profile Header

Context: User opens Profile section.

Twin Greeting:

"Good evening, Nikhel! You've been on your Ayurvedic journey for 47 days. Your Vata has decreased 12% since we started — great progress!"

User Info Card:

```
[Avatar]  Nikhel Mahajan
          nikhel@example.com
          Member since Dec 2025
                                    [Edit →]
```

Quick Stats:

```
47 days      Level 3      2 Active
Journey      Apprentice   Projects
```

3.2 My Constitution - Prakriti View

Context: User views their birth constitution.

Prakriti Card:

```
YOUR PRAKRITI (Birth Constitution)
Assessed Dec 15, 2025                    →
──────────────────────────────────────────

  PITTA 55%  ▓▓▓
```

```
[Dosha Wheel Visualization]

        ┌──────────────┐
        │   PITTA      │
        │    55%       │
        └──────────────┘
  ┌──────────────────────────┐
  │                          │
KAPHA                      VATA
 15%                        30%
```

Individual Dosha Details:

Pitta Section (55%):

```
🔥 YOUR PITTA (55%)

Elements: Fire + Water

Qualities You Embody:
• Sharp intellect and quick learning
• Strong digestion and metabolism
• Natural leadership and drive
• Focused and goal-oriented
• Medium build, warm body temperature

When Balanced:
Confident, articulate, organized, warm

When Imbalanced:
Irritable, critical, inflammatory, acidic
```

Vata Section (30%):

```
💨 YOUR VATA (30%)

Elements: Air + Space

Qualities You Embody:
• Creative and imaginative thinking
• Quick movement and speech
• Adaptable and flexible
• Enthusiastic about new ideas
• Lighter build, variable energy
```

```
When Balanced:
Creative, lively, quick-thinking, joyful

When Imbalanced:
Anxious, scattered, insomniac, dry
```

Kapha Section (15%):

```
💧 YOUR KAPHA (15%)

Elements: Water + Earth

Qualities You Embody:
• Grounding influence in your life
• Emotional stability when balanced
• Good long-term memory

Note: With low Kapha, you may need to
consciously cultivate grounding, rest, and
nourishment to prevent depletion.
```

Profile Summary:

```
📋 YOUR PITTA-VATA PROFILE SUMMARY

Digestive Type: Strong but can be variable
Agni Type: Tikshna-Vishama (sharp-variable)
Sleep Pattern: Light, may wake easily
Stress Response: Irritability + anxiety
Exercise Need: Moderate, cooling preferred
Climate Preference: Cool, moderate
Season Sensitivity: Summer (Pitta), Fall (Vata)
```

Actions:

```

```
│ Enable quiet hours                          [ON]    │
│ No notifications between:                           │
│ 10:00 PM → 6:30 AM                         [Edit]   │
└──────────────────────────────────────────────────────┘
```

3.7 Health Goals Settings

Context: User configures health goals.

Twin Message:

"These goals help me personalize your recommendations. They can change as your journey evolves."

Primary Focus:

```
What's most important to you right now?

● Better sleep & recovery
○ More energy & vitality
○ Weight management
○ Stress reduction
○ Digestive health
○ Mental clarity & focus
○ Overall balance
```

Sleep Goal:

```
Target sleep duration: [  7.5 hours  ▼]
Target bedtime:        [  10:00 PM   ▼]
```

Weight Goal:

```
○ Maintain current weight
○ Lose weight (sustainably)
○ Gain weight (healthily)
● I prefer not to focus on weight
```

Activity Level:

```
Current activity level:    [  Moderately Active  ▼]
Exercise frequency goal:   [  4-5 times per week  ▼]
```

3.8 Nutrition Preferences

Context: User configures dietary preferences.

Twin Message:

"These preferences help me recommend foods and recipes that work for your lifestyle and body."

Diet Type:

```
○ No restrictions
● Vegetarian
○ Vegan
○ Pescatarian
○ Flexitarian
○ Other: [specify]
```

Allergies & Intolerances:

```
□ Dairy
□ Gluten
□ Nuts
□ Soy
□ Eggs
□ Shellfish

Other allergies: [Add]
```

Food Preferences:

```
Foods I love: (We'll include these more)
[+ Add favorites]
• Rice dishes  • Soups  • Green vegetables

Foods I dislike: (We'll avoid these)
[+ Add dislikes]
• Raw onions  • Bitter gourd
```

Ayurvedic Eating Style:

```
☑ Follow food combining rules
☑ Seasonal eating recommendations
☑ Dosha-balancing meal suggestions
☑ Agni-appropriate meal timing
```

3.9 Connected Wearables

Context: User manages wearable connections.

Twin Message:

"Wearable data helps me understand your body's patterns — sleep, activity, stress — so I can give better recommendations."

Connected Device:

```
┌──────────────────────────────────────────────┐
│ ⌚ Apple Watch                    Connected  │
│ Last synced: 2 minutes ago                   │
│                                              │
│ Data sharing:                                │
```

```
☑ Heart rate & HRV
☑ Sleep data
☑ Activity & steps
☑ Workouts
☐ Menstrual cycle (if applicable)

[Manage] [Disconnect]
```

Add New Device:

```
[Oura]      [Whoop]      [Fitbit]
Ring

[Garmin]     [Eight]      [Other]
             Sleep
```

3.10 Privacy Settings

Context: User manages privacy and data.

Twin Message:

"Your data privacy is important. Here you can control what's collected and how it's used. More data helps me help you better, but you're always in control."

Data Collection:

```
Health metrics from wearables          [ON]
Required for health insights
```

```
Location (for weather/season)          [ON]
Helps with exposure & seasonal advice
```

```
Usage analytics                        [ON]
Helps improve the app experience
```

Data Usage:

```
Personalized recommendations              [ON]
Use my data to personalize advice
```

```
Anonymous research contribution          [OFF]
Contribute anonymized data to Ayurvedic
health research
```

Data Management:

```
[📤 Export All My Data]
Download a complete copy of your data
```

```
[🗑️ Delete All My Data]
Permanently remove all data (cannot undo)
```

3.11 Practitioner Connection

Context: User manages practitioner relationship.

Twin Message:

"Working with a practitioner alongside me gives you the best of both worlds — daily AI guidance plus expert oversight."

Connected Practitioner:

```
[Photo]  Dr. Anjali Sharma, BAMS, MD
         Ayurvedic Physician
         Mumbai, India
         ⭐ 4.9 (127 reviews)

Connected since: Jan 10, 2026

Sharing with Dr. Sharma:
☑ Constitution reports
☑ Health metrics (CHI, NSL)
☑ Protocol progress
☐ Chat conversation summaries

[Message]  [Schedule Consultation]
```

```
[Manage Sharing]  [Disconnect]
```

Recent Shared Reports:

```
Jan 28 - Monthly Health Summary         Viewed
Jan 15 - Vikriti Assessment             Viewed
Jan 10 - Initial Prakriti Report        Viewed
```

Practitioner Notes:

```
Jan 20 - Dr. Sharma's note:
"Continue with current Nidra protocol. Consider
adding Jatamansi if sleep onset doesn't improve
in 2 weeks. Good progress overall."
```

3.12 Subscription Management

Context: User views subscription status.

Current Plan:

```
CURRENT PLAN: Premium

5. AI Integration & Prompting Strategy

5.1 The Role of Claude in Profile Section

Claude serves as a guide and interpreter for the user's Ayurvedic identity:

Capability	Description
Profile Greeting	Personalized welcome with journey insights
Constitution Explanation	Explain Prakriti and Vikriti in accessible terms
Progress Insights	Highlight meaningful changes and achievements
Assessment Interpretation	Explain what Vikriti results mean
Settings Guidance	Help users understand why settings matter
Report Generation	Create comprehensive constitution reports

5.2 System Prompt for Profile Section

```
You are the Ayurvedic Digital Twin for AyuAware, serving as a
guide
to the user's constitutional identity and journey. Your role
is to
help users understand their Prakriti and Vikriti, celebrate
their
progress, and feel deeply understood.

## YOUR ROLE IN THIS SECTION

You are an identity guide. You help users understand WHO they
are
constitutionally, HOW they're evolving, and WHY this matters
for
their health journey. You make complex Ayurvedic concepts
personal
and accessible.

## CONSTITUTIONAL KNOWLEDGE

Prakriti (Birth Constitution):
- Fixed at birth, doesn't change
- Represents inherent nature
- Combination of Vata, Pitta, Kapha
- Determines baseline tendencies

Vikriti (Current State):
- Changes based on lifestyle, season, health
```

- Shows current dosha balance
- Indicates imbalances needing attention
- Goal is to return Vikriti to Prakriti

Dosha Characteristics:

Vata (Air + Space):
- Physical: Light build, dry skin, variable energy
- Mental: Creative, quick-thinking, adaptable
- Balanced: Enthusiastic, imaginative, flexible
- Imbalanced: Anxious, scattered, insomniac

Pitta (Fire + Water):
- Physical: Medium build, warm, strong digestion
- Mental: Sharp intellect, focused, driven
- Balanced: Confident, organized, articulate
- Imbalanced: Irritable, critical, inflammatory

Kapha (Water + Earth):
- Physical: Solid build, smooth skin, steady energy
- Mental: Calm, patient, nurturing
- Balanced: Stable, loving, grounded
- Imbalanced: Lethargic, attached, congested

COMMUNICATION APPROACH

When greeting users:
- Acknowledge their journey milestone
- Highlight positive progress
- Note any areas of attention
- Keep it warm and encouraging

When explaining constitution:
- Use accessible language alongside Sanskrit terms
- Connect to user's actual experiences
- Be specific about what it means for THEM
- Include practical implications

When discussing Vikriti changes:
- Be honest about imbalances without alarm
- Connect to their experiences (sleep issues, etc.)
- Explain what's being done to address it
- Celebrate improvements

When guiding settings:

```
- Explain WHY settings matter
- Connect to their Ayurvedic context
- Make recommendations based on constitution

## WHAT NOT TO DO

- Don't be vague or generic about constitution
- Don't alarm users about imbalances
- Don't ignore positive progress
- Don't make settings feel bureaucratic
- Don't lose the personal, warm tone
- Don't provide medical diagnoses
```

5.3 Context Building for Profile Section

Every Claude call includes:

```
CONTEXT PACKAGE STRUCTURE:

## User Profile
- Name: {user_name}
- Join date: {join_date}
- Days on journey: {journey_days}
- Current level: {level_name}
- Active projects: {project_count}

## Constitution
- Prakriti: {vata}% Vata, {pitta}% Pitta, {kapha}% Kapha
- Primary type: {primary_type}
- Prakriti assessed: {prakriti_date}
- Current Vikriti: {vata}% Vata, {pitta}% Pitta, {kapha}%
Kapha
- Vikriti assessed: {vikriti_date}
- Imbalances: {imbalance_list}

## Progress
- Dosha changes since start: {change_summary}
- Recent improvements: {improvements}
- Active protocols: {protocol_list}

## Health Metrics
- CHI: {chi_score}
- NSL: {nsl_score}
- Agni: {agni_score}
- Ojas: {ojas_score}
```

```
## Specific Request
- What user is viewing/doing: {context}
```

5.4 Prompt Templates by Scenario

Profile Greeting:

```
Generate a personalized greeting for the Profile section.

{CONTEXT_PACKAGE}

Generate a greeting that:

1. **Acknowledges their journey**
   - Days/weeks on journey
   - Meaningful milestone if applicable

2. **Highlights progress**
   - Dosha improvements
   - Health metric improvements
   - Protocol progress

3. **Notes current focus** (if relevant)
   - Current imbalances being addressed
   - Active protocols

Tone: Warm, encouraging, personal
Length: 3-4 sentences
```

Prakriti Report:

```
Generate a detailed Prakriti explanation for this user.

{CONTEXT_PACKAGE}

Generate content for each dosha section:

For each dosha ({dosha_name} at {percentage}%):

1. **Elements and qualities**
2. **Qualities they embody** (4-5 specific traits)
3. **When balanced** (positive manifestations)
4. **When imbalanced** (what to watch for)
5. **Special notes** if very high or very low

Also generate:

**Profile Summary:**
```

- Digestive type
- Agni type
- Sleep pattern
- Stress response
- Exercise needs
- Climate preference
- Season sensitivity

Tone: Informative, personal, empowering

Vikriti Assessment Interpretation:

Interpret this Vikriti assessment result.

{CONTEXT_PACKAGE}

New Vikriti: {new_vikriti_percentages}
Previous Vikriti: {previous_vikriti_percentages}
Prakriti: {prakriti_percentages}

Generate interpretation that:

1. **Summarizes current state**
   - Which doshas are elevated/depleted
   - Comparison to Prakriti baseline

2. **Explains what this means**
   - Likely symptoms/experiences
   - Why this might have happened

3. **Notes progress** (if any)
   - Improvements since last assessment
   - Areas still needing attention

4. **Connects to their protocols**
   - How current protocols address this
   - Any suggestions for adjustment

Tone: Honest, reassuring, actionable

Settings Guidance:

Generate guidance for this settings section.

{CONTEXT_PACKAGE}

Settings Section: {section_name}

```
Generate a brief message that:

1. **Explains why this matters**
   - How it affects their experience
   - Connection to their Ayurvedic journey

2. **Provides context**
   - What the settings control
   - How they're used

Keep it brief (2-3 sentences).
```

6. Data Models & State Management

6.1 Core Data Types

UserProfile:

```
UserProfile:
  - id: string
  - email: string
  - name: string
  - displayName: string
  - avatar: string | null
  - joinDate: Date
  - timezone: string
  - locale: string
  - location: Location | null
  - journeyDays: number
  - currentLevel: number
  - currentLevelName: string
  - totalXP: number

Location:
  - city: string | null
  - region: string | null
  - country: string
  - latitude: number
  - longitude: number
```

Constitution:

```
Constitution:
  - userId: string
  - prakriti: DoshaProfile
  - currentVikriti: DoshaProfile
  - prakritiAssessedAt: Date
```

```
  - vikritiAssessedAt: Date
  - assessmentHistory: Assessment[]
  - constitutionalType: string (e.g., "Pitta-Vata")
  - primaryDosha: 'vata' | 'pitta' | 'kapha'
  - secondaryDosha: 'vata' | 'pitta' | 'kapha' | null

DoshaProfile:
  - vata: number (0-100)
  - pitta: number (0-100)
  - kapha: number (0-100)

Assessment:
  - id: string
  - type: 'prakriti' | 'vikriti'
  - assessedAt: Date
  - doshaProfile: DoshaProfile
  - responses: AssessmentResponse[]
  - summary: string (AI-generated)
  - comparisonToPrakriti: DoshaComparison | null

DoshaComparison:
  - vataDiff: number
  - pittaDiff: number
  - kaphaDiff: number
  - imbalances: Imbalance[]

Imbalance:
  - dosha: 'vata' | 'pitta' | 'kapha'
  - severity: 'mild' | 'moderate' | 'significant'
  - direction: 'elevated' | 'depleted'
  - percentageDiff: number
```

Settings:

```
UserSettings:
  - userId: string
  - notifications: NotificationSettings
  - healthGoals: HealthGoals
  - nutritionPreferences: NutritionPreferences
  - lifestylePreferences: LifestylePreferences
  - privacy: PrivacySettings
  - language: string
  - region: string

NotificationSettings:
  - morningCheckIn: NotificationConfig
```

```
  - eveningWindDown: NotificationConfig
  - mealReminders: MealReminderConfig

```

6.3 State Management Approach

Zustand Stores:

```
Stores:

1. userStore
   - User profile
   - Constitution data
   - Assessment history
   - Profile operations

2. settingsStore
   - All settings categories
   - Notification configs
   - Preferences
   - Settings operations

3. integrationStore
   - Wearable connections
   - App connections
   - Sync status
   - Connection operations

4. practitionerStore
   - Practitioner connection
   - Search results
   - Sharing settings
   - Practitioner operations

5. subscriptionStore
   - Subscription status
   - Billing history
   - Plan management

6. profileUIStore
   - View states
   - Edit modes
   - Messages
   - Modals
```

7. Component Requirements

7.1 Profile Header Components

ProfileHeader

Main header with user info:

- Twin avatar with greeting message
- User info card (name, email, photo, join date)
- Edit button
- Quick stats row

QuickStatsRow

Summary stats:

- Journey days
- Current level
- Active projects count

TwinGreetingCard

Personalized greeting:

- Twin avatar
- AI-generated message
- Journey insights

7.2 Constitution Components

ConstitutionSection

Constitution overview:

- Prakriti card
- Vikriti card
- History link

PrakritiCard

Birth constitution summary:

- Dosha bar chart
- Constitutional type
- Brief description
- View report link

VikritiCard

Current state summary:

- Dosha bar chart with comparison
- Imbalance indicators
- Brief description
- View report / Retake links

DoshaBarChart

Visual dosha display:

- Three horizontal bars (Vata, Pitta, Kapha)
- Percentage labels

- Comparison arrows (for Vikriti)
- Color-coded by dosha

DoshaWheelVisualization

Circular dosha visualization:

- Triangle/wheel showing balance
- Percentages at each point
- Color-coded sections

PrakritiReportView

Detailed Prakriti report:

- Dosha wheel visualization
- Individual dosha sections (3)
- Profile summary table
- Download/share actions

VikritiReportView

Detailed Vikriti report:

- Current state visualization
- Comparison to Prakriti
- Imbalance explanation
- Progress notes
- Retake assessment link

ConstitutionalHistoryView

History timeline:

- Line graph of dosha changes
- Assessment list
- View all link

AssessmentFlow

Vikriti assessment:

- Progress indicator
- Question cards
- Answer options
- Navigation
- Results display

7.3 Settings Components

SettingsSection

Settings category list:

- Category cards with icons
- Descriptions
- Navigation arrows

SettingsHeader

Settings page header:

- Back button
- Section title
- Twin guidance (optional)

NotificationsSettings

Notification configuration:

- Category sections
- Toggle switches
- Time pickers
- Quiet hours config

HealthGoalsSettings

Goals configuration:

- Primary focus selector
- Sleep goal inputs
- Weight goal selector
- Activity level inputs

NutritionPreferencesSettings

Nutrition configuration:

- Diet type selector
- Allergy checkboxes
- Food likes/dislikes lists
- Ayurvedic style toggles

LifestylePreferencesSettings

Lifestyle configuration:

- Exercise preferences
- Routine preferences
- Practice preferences

LanguageRegionSettings

Localization:

- Language selector
- Timezone selector
- Location settings

7.4 Integration Components

IntegrationsSection

Integration overview:

- Connected wearables list
- Connected apps list
- Add new buttons

WearableConnectionCard

Wearable device card:

- Device icon and name
- Connection status
- Last synced
- Data sharing toggles
- Manage/disconnect buttons

AddWearableModal

Add device flow:

- Device type grid
- OAuth flow
- Data sharing config

PrivacySettingsView

Privacy controls:

- Data collection toggles
- Data usage toggles
- Export button
- Delete button
- Policy links

7.5 Practitioner Components

PractitionerSection

Practitioner overview:

- My practitioner card (if connected)
- Find practitioner link
- Share reports link

PractitionerCard

Connected practitioner:

- Photo and credentials
- Connection date
- Sharing settings
- Recent shared reports
- Action buttons

PractitionerSearchView

Find practitioners:

- Search/filter
- Results list
- Practitioner cards

PractitionerNotesCard

Notes from practitioner:

- Date and author

- Note content
- Expandable

7.6 Subscription Components

SubscriptionCard

Current plan:

- Plan name and price
- Renewal date
- Features list
- Manage button

BillingHistoryList

Past invoices:

- Date, amount, status
- Invoice links

7.7 Help & Support Components

HelpSection

Support options:

- FAQ link
- Contact support link
- Tutorial link
- About link

AboutView

App information:

- Version info
- Team/mission
- Legal links

7.8 Account Action Components

AccountActionsSection

Account actions:

- Invite friends
- Rate app
- Log out

LogoutConfirmation

Logout confirmation modal:

- Confirmation message
- Cancel/confirm buttons

7.9 Animation Requirements

Animation	Duration	Easing	Trigger
Section expand	300ms	ease-out	Tap section
Toggle switch	200ms	ease-out	Toggle tap
Dosha bar fill	600ms	ease-out	View load
Progress step	300ms	ease-out	Assessment step
Modal appear	300ms	ease-out	Modal open
Save confirmation	300ms	ease-out	Settings save
Connection success	400ms	bounce	Device connected
History graph draw	800ms	ease-out	History view

8. API Requirements

8.1 REST Endpoints

Get Profile:

```
GET /api/v1/profile

Response:
{
  "profile": {
    "id": "user_001",
    "name": "Nikhel Mahajan",
    "email": "nikhel@example.com",
    "avatar": "https://...",
    "joinDate": "2025-12-15",
    "timezone": "America/Los_Angeles",
    "journeyDays": 47,
    "currentLevel": 3,
    "currentLevelName": "Apprentice",
    "totalXP": 450
  },
  "quickStats": {
    "activeProjects": 2,
    "completedProjects": 1,
    "lessonsCompleted": 12,
    "currentStreak": 5
```

```
  }
}
```

Update Profile:

```
PUT /api/v1/profile

Request:
{
  "name": "Nikhel Mahajan",
  "displayName": "Nikhel",
  "avatar": "https://..."
}

Response:
{
  "success": true,
  "profile": {...}
}
```

Get Constitution:

```
GET /api/v1/constitution

Response:
{
  "prakriti": {
    "vata": 30,
    "pitta": 55,
    "kapha": 15,
    "assessedAt": "2025-12-15",
    "constitutionalType": "Pitta-Vata",
    "primaryDosha": "pitta",
    "secondaryDosha": "vata"
  },
  "currentVikriti": {
    "vata": 40,
    "pitta": 45,
    "kapha": 15,
    "assessedAt": "2026-01-28"
  },
  "comparison": {
    "vataDiff": 10,
    "pittaDiff": -10,
    "kaphaDiff": 0,
    "imbalances": [
      {
        "dosha": "vata",
```

```
        "severity": "moderate",
        "direction": "elevated",
        "percentageDiff": 10
      }
    ]
  },
  "recentHistory": [
    {
      "date": "2026-01-28",
      "type": "vikriti",
      "vata": 40,
      "pitta": 45,
      "kapha": 15
    },
    ...
  ]
}
```

Get Prakriti Report:

```
GET /api/v1/constitution/prakriti/report

Response:
{
  "prakriti": {...},
  "constitutionalType": "Pitta-Vata",
  "doshaDetails": {
    "pitta": {
      "percentage": 55,
      "elements": "Fire + Water",
      "qualities": ["Sharp intellect", "Strong
digestion", ...],
      "balanced": "Confident, articulate, organized, warm",
      "imbalanced": "Irritable, critical, inflammatory"
    },
    "vata": {...},
    "kapha": {...}
  },
  "profileSummary": {
    "digestiveType": "Strong but variable",
    "agniType": "Tikshna-Vishama",
    "sleepPattern": "Light, may wake easily",
    "stressResponse": "Irritability + anxiety",
    "exerciseNeed": "Moderate, cooling preferred",
    "climatePreference": "Cool, moderate",
    "seasonSensitivity": ["Summer (Pitta)", "Fall (Vata)"]
```

```
  },
  "generatedAt": "2026-01-28T12:00:00Z"
}
```

Submit Vikriti Assessment:

```
POST /api/v1/constitution/vikriti/assess

Request:
{
  "responses": [
    { "questionId": "q1", "answer": "often" },
    { "questionId": "q2", "answer": "sometimes" },
    ...
  ]
}

Response:
{
  "success": true,
  "newVikriti": {
    "vata": 40,
    "pitta": 45,
    "kapha": 15,
    "assessedAt": "2026-01-28"
  },
  "comparison": {...},
  "summary": "Your Vata has elevated by 10%...",
  "recommendations": [...]
}
```

Get Constitution History:

```
GET /api/v1/constitution/history?period=6months

Response:
{
  "assessments": [
    {

      "status": "connected",
      "lastSyncedAt": "2026-01-28T12:00:00Z"
    }
  ]
}
```

Connect Wearable:

```
POST /api/v1/integrations/wearables/connect

Request:
{
  "deviceType": "oura_ring",
  "authCode": "oauth_code_here"
```

```
}

Response:
{
  "success": true,
  "connection": {
    "id": "wear_002",
    "deviceType": "oura_ring",
    "status": "connected"
  }
}
```

Update Wearable Sharing:

```
PUT /api/v1/integrations/wearables/:id/sharing

Request:
{
  "heartRate": true,
  "hrv": true,
  "sleep": true,
  "activity": false
}

Response:
{
  "success": true
}
```

Disconnect Wearable:

```
DELETE /api/v1/integrations/wearables/:id

Response:
{
  "success": true
}
```

Get Practitioner Connection:

```
GET /api/v1/practitioner

Response:
{
  "connection": {
    "id": "prac_conn_001",
    "connectedAt": "2026-01-10",
    "practitioner": {
      "id": "prac_001",
```

```
      "name": "Dr. Anjali Sharma",
      "credentials": "BAMS, MD",
      "specialty": "Ayurvedic Physician",

      "protocolProgress": true,
      "chatSummaries": false
    },
    "sharedReports": [...],
    "practitionerNotes": [...]
  }
}
```

Search Practitioners:

```
GET /api/v1/practitioners/search?q=vata&location=mumbai

Response:
{
  "practitioners": [
    {
      "id": "prac_001",
      "name": "Dr. Anjali Sharma",
      ...
    },
    ...
  ],
  "totalResults": 24
}
```

Connect Practitioner:

```
POST /api/v1/practitioner/connect

Request:
{
  "practitionerId": "prac_001",
  "sharingSettings": {
    "constitutionReports": true,
    "healthMetrics": true
  }
}
```

```
Response:
{
  "success": true,
  "connection": {...}
}
```

Get Subscription:

```
GET /api/v1/subscription

Response:
{
  "subscription": {
    "plan": {
      "id": "premium",
      "name": "Premium",
      "price": 14.99,
      "interval": "month",
      "features": [...]
    },
    "status": "active",
    "currentPeriodEnd": "2026-02-15",
    "cancelAtPeriodEnd": false
  },
  "billingHistory": [...]
}
```

Export Data:

```
POST /api/v1/data/export

Response:
{
  "success": true,
  "jobId": "export_001",
  "estimatedTime": 60,
  "notifyEmail": true
}
```

Get Export Status:

```
GET /api/v1/data/export/:jobId

Response:
{
  "status": "complete",
  "downloadUrl": "https://...",
  "expiresAt": "2026-01-29T12:00:00Z"
```

```
}
```

Delete All Data:

```
DELETE /api/v1/data/all

Request:
{
  "confirmation": "DELETE_ALL_MY_DATA"
}

Response:
{
  "success": true,
  "message": "All data has been permanently deleted"
}
```

8.2 WebSocket Events (Optional)

```
WebSocket Events:

wearable.sync_complete
{
  "deviceId": "wear_001",
  "deviceType": "apple_watch",
  "syncedAt": "2026-01-28T12:30:00Z",
  "dataTypes": ["sleep", "hrv", "activity"]
}

practitioner.note_added
{
  "connectionId": "prac_conn_001",
  "note": {
    "date": "2026-01-28",
    "preview": "Continue with current protocol..."
  }
}

export.ready
{
  "jobId": "export_001",
  "downloadUrl": "https://..."
}
```

9. Success Metrics

9.1 Engagement Metrics

Metric	Target	Measurement
Profile visits per month	> 4	Users visiting Profile
Constitution views	> 2/ month	Views of Prakriti/Vikriti
Settings modified	> 1/ month	Settings changed
Assessment completion	> 80%	Vikriti assessments started vs. completed

9.2 Constitutional Tracking Metrics

Metric	Target	Measurement
Vikriti assessment rate	> 1/ month	Average assessments per user
Prakriti report views	> 50%	Users who view full report
History views	> 30%	Users who view history
Report downloads	> 20%	Users who download PDF

9.3 Integration Metrics

Metric	Target	Measurement
Wearable connection rate	> 40%	Users with connected wearable
Sync success rate	> 95%	Successful sync operations
Data sharing opt-in	> 80%	Users sharing all data types
Multi-device rate	> 20%	Users with 2+ devices

9.4 Practitioner Metrics

Metric	Target	Measurement
Practitioner connection rate	> 15%	Users with connected practitioner
Report sharing rate	> 80%	Connected users who share reports
Practitioner search usage	> 25%	Users who search for practitioners

9.5 Privacy & Data Metrics

Metric	Target	Measurement

Privacy settings viewed	> 30%	Users who view privacy settings
Data export requests	< 5%	Users requesting export
Data deletion requests	< 1%	Users deleting data
Opt-out rate	< 10%	Users opting out of features

9.6 Technical Metrics

Metric	Target	Measurement
Profile load time	< 1s	Time to display profile
Constitution load time	< 1s	Time to load constitution
Assessment completion time	< 5 min	Time to complete Vikriti
Settings save time	< 500ms	Time to save settings
Export generation time	< 5 min	Time to generate export
Error rate	< 1%	Failed operations

10. Implementation Considerations

10.1 Constitution Assessment

Prakriti Assessment:

- Comprehensive questionnaire (50-100 questions)
- Covers physical, mental, and behavioral traits
- One-time assessment (can retake if desired)
- Results are permanent baseline

Vikriti Assessment:

- Shorter questionnaire (20-30 questions)
- Focuses on recent/current state
- Recommended monthly or when feeling off
- Compared against Prakriti baseline

Assessment UX:

- Progress indicator
- One question per screen (mobile-friendly)
- Back/forward navigation
- Save partial progress
- Clear explanations

10.2 Wearable Integration

OAuth Flow:

- Secure OAuth 2.0 implementation

- Token storage encrypted
- Automatic token refresh

Data Sync:

- Initial historical sync (30-90 days)
- Ongoing sync (real-time or scheduled)
- Background sync capability
- Conflict resolution

Supported Data Types:

Data Type	Used For
Heart rate	Stress, recovery analysis
HRV	Dosha assessment, stress
Sleep	NSL score, sleep analysis
Activity	Movement patterns
Workouts	Exercise tracking

10.3 Practitioner Integration

Connection Flow:

- User finds practitioner in directory
- Sends connection request
- Practitioner accepts
- Sharing settings configured

Report Sharing:

- Auto-share enabled reports
- Manual share for specific reports
- Practitioner receives notification
- View tracking

Communication:

- In-app messaging (future)
- Consultation scheduling (future)
- Notes from practitioner

10.4 Data Privacy & Security

Data Collection:

- Clear consent for each data type
- Granular controls
- Purpose explanation

Data Storage:

- Encrypted at rest
- Encrypted in transit
- Regional compliance (GDPR, CCPA)

Data Export:

- Complete data export (JSON, CSV, PDF)
- Machine-readable format
- Within 24-48 hours

Data Deletion:

- Right to deletion
- Permanent and irreversible
- Confirmation required
- 30-day grace period option

10.5 Notification System

Notification Types:

Type	Channel	Customizable
Daily reminders	Push	Time, on/off
Meal reminders	Push	Times, on/off
Supplement	Push	On/off
Protocol	Push	On/off
Insights	Push, Email	On/off
Seasonal	Push	On/off

Quiet Hours:

- Respects system Do Not Disturb
- Custom quiet hours
- Critical notifications can override

10.6 Subscription Management

Plan Features:

Feature	Free	Premium
Twin conversations	Limited	Unlimited
Health tracking	Basic	Full
Projects	1 active	Unlimited
Learn library	Foundation	Full
Practitioner sharing	-	✓
Advanced insights	-	✓

Payment Processing:

- App Store / Play Store subscriptions
- Secure payment handling
- Receipt validation
- Subscription restoration

10.7 Offline Handling

When Offline:

- View cached profile
- View cached constitution
- View cached settings
- Cannot modify (queue changes)
- Cannot run assessments

When Back Online:

- Sync queued changes
- Update cache
- Refresh data

10.8 Accessibility Requirements

Screen Reader:

- Profile info announced
- Constitution data accessible
- Settings navigable
- Forms properly labeled

Motor Accessibility:

- Large tap targets for toggles
- Swipe navigation
- Voice input where possible

Visual Accessibility:

- WCAG AA contrast
- Dosha colors distinguishable
- Support Dynamic Type
- High contrast mode

10.9 Analytics Events

Event	Properties	Purpose
`profile_opened`	source	Track entry
`constitution_viewed`	type (prakriti/vikriti)	Engagement
`report_viewed`	report_type	Content interest
`report_downloaded`	report_type	Export usage
`assessment_started`	type	Assessment engagement

`assessment_completed`	type, duration	Completion tracking
`settings_viewed`	category	Settings interest
`settings_changed`	category, setting	Customization
`wearable_connected`	device_type	Integration
`wearable_disconnected`	device_type, reason	Churn
`practitioner_connected`	-	Practitioner adoption
`report_shared`	report_type	Sharing behavior
`data_exported`	-	Privacy action
`data_deleted`	-	Account action
`subscription_viewed`	-	Monetization
`subscription_changed`	from, to	Monetization

10.10 Testing Priorities

Unit Tests:

- Assessment scoring
- Constitution comparison
- Settings validation
- Privacy controls

Integration Tests:

- OAuth wearable flow
- Assessment completion
- Settings persistence
- Data export

E2E Tests:

- Profile viewing flow
- Constitution report generation
- Wearable connection
- Settings modification

Manual QA:

- Assessment accuracy
- Report content quality
- Integration reliability
- Privacy compliance

Appendix A: Constitutional Types Reference

Dual-Dosha Types

Type	Primary	Secondary	Key Characteristics

Vata-Pitta	Vata	Pitta	Creative, intense, variable energy
Pitta-Vata	Pitta	Vata	Driven, quick, sharp intellect
Pitta-Kapha	Pitta	Kapha	Determined, steady, strong build
Kapha-Pitta	Kapha	Pitta	Stable, warm, good endurance
Vata-Kapha	Vata	Kapha	Variable, grounded, creative
Kapha-Vata	Kapha	Vata	Steady, adaptable, calm

Single-Dosha Types (Less Common)

Type	Characteristics
Vata	Highly creative, very light, very variable
Pitta	Very driven, very sharp, very intense
Kapha	Very stable, very grounded, very steady

Tri-Dosha Type (Rare)

Type	Characteristics
Sama (Balanced)	Equal all three, very adaptable, balanced

Appendix B: Assessment Question Categories

Prakriti Assessment Categories

Category	Questions	Focus
Body Frame	8-10	Build, bone structure, weight tendency
Skin & Hair	8-10	Texture, temperature, oiliness
Digestion	8-10	Appetite, digestion speed, preferences
Sleep	6-8	Patterns, depth, waking
Mental	10-12	Thinking style, memory, learning
Emotional	8-10	Reactions, stress response
Activity	6-8	Movement style, energy patterns

Vikriti Assessment Categories

Category	Questions	Focus
Current Sleep	4-5	Recent patterns
Current Digestion	4-5	Recent digestion
Current Energy	4-5	Recent energy levels
Current Mind	4-5	Recent mental state
Current Body	4-5	Recent physical symptoms
Recent Changes	3-4	Life changes, stressors

Appendix C: Notification Templates

Daily Reminders

Notification	Default Time	Message Template
Morning check-in	7:00 AM	"Good morning! How did you sleep? Let's log it."
Evening wind-down	8:30 PM	"Time to start your evening routine. Your body will thank you."
Breakfast	7:30 AM	"Best time for breakfast for your Agni."
Lunch	12:30 PM	"Lunch time! This is when your digestion is strongest."
Dinner	6:30 PM	"Time for dinner. Eat light for better sleep."

Protocol Reminders

Notification	Message Template
Protocol task	"Your Nidra Protocol: Time for [task name]"
Protocol milestone	"Day 7 of your Nidra Protocol! You're building momentum."

Insight Notifications

Notification	Message Template
Weekly insight	"Your weekly health summary is ready. Tap to see your progress."
Seasonal transition	"Vasanta (Spring) is approaching. Let's adjust your routine."

End of Document
