AyuAware Chat History Section - Final Visual Design Specification

Overview

The Chat History section serves three primary purposes:

1. **Finding specific conversations** - "Where did we discuss my sleep issues?"
2. **Resuming ongoing threads** - Continue where you left off
3. **Reviewing journey/progress** - See evolution over time

This specification details a sophisticated yet clean interface that supports all use cases while maintaining visual simplicity.

Design Philosophy

Principles:

1. **Clean by default, powerful when needed** - Minimal visual noise, rich functionality on demand
2. **Smart categorization** - Conversations intelligently grouped by type and theme
3. **Flexible discovery** - Multiple ways to find what you need (chronological, topics, search)
4. **Action-rich** - Full set of conversation management tools
5. **Consistent experience** - Same design across mobile and desktop

Conversation Taxonomy

Three Main Categories

1. Check-ins

- Daily morning/evening routines
- Progress tracking
- Structured assessments
- **Visual Identity**:
  - Icon: ✓ checkmark in circle
  - Color: `#4A9B8E` (teal)
  - Badge: "Check-in"

2. Deep Dives

- Constitutional analysis
- Health metrics analysis
- Protocol generation
- Comprehensive assessments
- **Visual Identity**:
  - Icon: 🔍 magnifying glass or 📊 chart
  - Color: `#E89B7F` (coral)

    - Badge: "Analysis"

3. Casual Chat

- General questions
- Quick advice
- Informal conversation
- Follow-up queries
- **Visual Identity**:
    - Icon: 💬 chat bubble
    - Color: `#7AB8AC` (light teal)
    - Badge: "Chat"

View Modes

Users can toggle between two view modes:

Mode 1: Chronological List (Default)

Shows all conversations in time order with groupings:

- Today
- Yesterday
- Last 7 Days
- Last 30 Days
- Older

Mode 2: Topic-Based Grouping

Conversations organized by health themes:

- Sleep & Recovery
- Digestion & Nutrition
- Stress & Mental Health
- Energy & Vitality
- Constitution & Balance
- Symptoms & Concerns
- Protocols & Practices
- General

Toggle Implementation: User taps a view mode selector at the top to switch between modes.

Color Palette

Category Colors

- **Check-ins**: `#4A9B8E` (teal)
- **Deep Dives**: `#E89B7F` (coral)
- **Casual Chat**: `#7AB8AC` (light teal)

UI Colors

- **Background**: `#F5F7F6` (light gray-green)
- **Card Background**: `#FFFFFF` (white)
- **Header Background**: `#FFFFFF` (white)
- **Border**: `#E0EBE8` (light gray)
- **Text Primary**: `#1A2B26` (dark green-black)
- **Text Secondary**: `#5A6B66` (medium gray)
- **Text Tertiary**: `#A8B5B1` (light gray)
- **Pinned Highlight**: `#FFF9F0` (warm cream)
- **Favorite**: `#F8C471` (gold)

Typography

- **Header Title**: 17px, weight 600
- **Section Headers**: 13px, weight 600, uppercase, letter-spacing 0.5px
- **Conversation Title**: 16px, weight 600
- **Timestamp**: 13px, weight 400
- **Badge**: 11px, weight 600, uppercase
- **Preview Text**: 14px, weight 400, line-height 20px
- **Search Placeholder**: 16px, weight 400

Layout Structure

Screen Dimensions (iPhone 14 Pro)

- Screen Width: 393px
- Safe Area Top: 59px
- Safe Area Bottom: 34px
- Content Width: 393px (full width for cards)
- Horizontal Padding: 16px

Desktop (Consistent Design)

- Same component sizes
- Max content width: 600px
- Centered layout
- Increased margins: 24px

Component Specifications

1. Header Bar

```
┌──────────────────────────────────────────────────────┐
│  ←  Chat History                    [Grid/List]  ⚙️  │
└──────────────────────────────────────────────────────┘
```

Specifications:

- Height: 56px + safe area

- Background: `#FFFFFF`
- Border bottom: 1px solid `#E0EBE8`
- Shadow: `0 1px 3px rgba(0,0,0,0.04)`
- Position: Sticky at top

Back Button:

- Icon: ← chevron left
- Size: 24x24px
- Color: `#1A2B26`
- Tap area: 44x44px
- Position: 16px from left

Title:

- Text: "Chat History"
- Font: 17px, weight 600
- Color: `#1A2B26`
- Position: Center or left-aligned (32px from left)

View Mode Toggle:

- Two icons: Grid (topic view) / List (chronological view)
- Size: 22x22px
- Color: `#1A2B26` (active) / `#A8B5B1` (inactive)
- Tap area: 44x44px
- Position: Right side, 60px from right edge

Settings:

- Icon: ⚙️ gear
- Size: 22x22px
- Color: `#1A2B26`
- Tap area: 44x44px
- Position: 16px from right

2. Smart Search Bar

```
┌──────────────────────────────────────────────────────┐
│  🔍  Show me conversations about my digestion...  [×]│
└──────────────────────────────────────────────────────┘
```

Container:

- Height: 44px
- Background: `#FFFFFF`
- Border: 1px solid `#E0EBE8`
- Border radius: 22px (pill)
- Margin: 12px 16px
- Padding: 0 16px
- Shadow: `0 2px 4px rgba(0,0,0,0.04)`

Search Icon:

- Icon: 🔍

- Size: 20x20px
- Color: `#A8B5B1`
- Position: Left, 16px from edge

Input:

- Font: 16px, weight 400
- Color: `#1A2B26`
- Placeholder: "Search or ask about conversations..."
- Placeholder color: `#A8B5B1`
- Flex: 1
- Margin: 0 12px

Placeholder Examples (rotate):

- "Search or ask about conversations..."
- "Show me conversations about my digestion"
- "When did we discuss stress?"
- "Find check-ins from last week"

Clear Button (when active):

- Icon: × close
- Size: 20x20px
- Color: `#A8B5B1`
- Tap area: 32x32px
- Position: Right, 12px from edge
- Animation: Fade in/out

Active State:

- Border: 1px solid `#4A9B8E`
- Shadow: `0 0 0 3px rgba(74, 155, 142, 0.1)`

Search Behavior:

- **Basic mode**: Matches keywords in titles, content, tags
- **Semantic mode**: AI interprets natural language queries
  - "Show me conversations about digestion" → finds all digestion-related conversations
  - "When did we discuss my stress?" → finds stress conversations with timestamps
  - "Find my morning check-ins" → filters to morning check-in type
- Results highlight matched terms
- Shows count: "12 results for 'digestion'"

3. Filter Pills (Appears below search when searching)

```
[All]  Check-ins  Analyses  Chats  Clear filters
```

Container:

- Padding: 0 16px 12px
- Background: `#FFFFFF`
- Horizontal scroll if needed
- Only appears after search initiated

Pill:

- Background: `#F5F7F6` (inactive) / `#E8F4F3` (active)
- Border: 1px solid `#E0EBE8` (inactive) / `#4A9B8E` (active)
- Border radius: 16px (pill)
- Padding: 6px 16px
- Margin right: 8px
- Font: 14px, weight 500
- Color: `#5A6B66` (inactive) / `#4A9B8E` (active)

Special Pill - Clear Filters:

- No border
- Background: transparent
- Color: `#A8B5B1`
- Underline on tap
- Only shows when filters active

4. Chronological View

Section Headers

```
TODAY                                                    3
```

Specifications:

- Font: 13px, weight 600, uppercase, letter-spacing 0.5px
- Color: `#A8B5B1`
- Padding: 16px 16px 8px
- Background: transparent
- Count: Right-aligned, same styling

Sections:

- TODAY
- YESTERDAY
- LAST 7 DAYS
- LAST 30 DAYS
- OLDER

Conversation Card (Minimal Design)

```
✓ Morning check-in                                       ›
7:30 AM
```

Card Container:

- Background: `#FFFFFF`
- Border radius: 12px

- Padding: 16px
- Margin: 8px 16px
- Shadow: `0 1px 3px rgba(0,0,0,0.06)`
- Border left: 4px solid [category color]
- Min height: 60px

Category Color (left border):

- Check-ins: `#4A9B8E` (teal)
- Deep Dives: `#E89B7F` (coral)
- Casual Chat: `#7AB8AC` (light teal)

Pinned Card:

- Background: `#FFF9F0` (warm cream)
- Border: 1px solid `#F8C471`
- Border left: 4px solid `#F8C471`
- Pin icon: 📌 in top-right corner, 16x16px

Favorited Card:

- Star icon: ⭐ in top-right corner, 16x16px
- No background change

Layout:

```
[Icon]  [Title]                [Status] [›]
        [Timestamp] [Badge]
```

Icon (Left Side):

- Size: 24x24px
- Color: [category color]
- Position: 16px from left, vertically centered
- Margin right: 12px

Icon Types:

- Check-in: ✓ checkmark in circle
- Deep Dive: 🔍 magnifying glass or 📊
- Casual Chat: 💬 chat bubble

Title:

- Font: 16px, weight 600
- Color: `#1A2B26`
- Position: After icon
- Flex: 1
- Max lines: 1
- Overflow: ellipsis

Status Indicators (Right of Title):

- Completion: ✓ green checkmark (14x14px) for completed check-ins
- Unread: Red dot (8x8px) for new messages

- Continued: ↪️ arrow (14x14px) for continued threads

Chevron (Right Edge):

- Icon: › right chevron
- Size: 20x20px
- Color: `#E0EBE8`
- Position: 16px from right, vertically centered

Timestamp:

- Font: 13px, weight 400
- Color: `#A8B5B1`
- Position: Below title, aligned with icon
- Margin top: 4px

Badge (Optional, next to timestamp):

- Text: "Check-in" / "Analysis" / "Chat"
- Font: 11px, weight 600, uppercase
- Color: [category color]
- Background: [category color at 10% opacity]
- Border radius: 4px
- Padding: 2px 6px
- Margin left: 8px

Tap State:

- Background: `#F8FAFB`
- Transform: scale(0.98)
- Duration: 100ms

Swipe Actions

Swipe Right (from left edge):

```
[Pin] [Favorite]     Morning check-in          ›
```

Action Buttons:

- Width: 80px each
- Height: Full card height
- Font: 13px, weight 600
- Icon + label layout

Pin:

- Background: `#F8C471` (gold)
- Icon: 📌 (20x20px)
- Label: "Pin"
- Color: `#FFFFFF`

Favorite:

- Background: `#7AB8AC` (light teal)

- Icon: ⭐ (20x20px)
- Label: "Favorite"
- Color: `#FFFFFF`

Swipe Left (from right edge):

```
Morning check-in     [Share] [Delete]
```

Share:

- Background: `#4A9B8E` (teal)
- Icon: ↗️ (20x20px)
- Label: "Share"
- Color: `#FFFFFF`

Delete:

- Background: `#E89B7F` (coral/red)
- Icon: 🗑️ (20x20px)
- Label: "Delete"
- Color: `#FFFFFF`

Interaction:

- Smooth elastic animation
- Haptic feedback on reveal
- Spring back if swipe incomplete
- Auto-execute on full swipe (80px+)

Long Press Menu

Trigger:

- Long press (500ms) on any card
- Haptic feedback on trigger

Menu Appearance:

```
Morning check-in
──────────────────────────────────────
↗️  Open conversation
📌  Pin to top
⭐  Add to favorites
🏥  Share with practitioner
📝  Add notes/tags
💾  Export conversation
↪️  Continue thread
```

```
│  🗑  Delete                                    │
│  ──────────────────────────────────────────────│
│  Cancel                                        │
└────────────────────────────────────────────────┘
```

Menu Specifications:

- Background: `#FFFFFF`
- Border radius: 16px
- Shadow: `0 8px 24px rgba(0,0,0,0.12)`
- Padding: 8px 0
- Max width: 320px
- Position: Centered over card

Menu Header:

- Title of conversation
- Font: 15px, weight 600
- Color: `#1A2B26`
- Padding: 12px 16px
- Border bottom: 1px solid `#E0EBE8`

Menu Items:

- Height: 48px
- Padding: 0 16px
- Font: 16px, weight 400
- Color: `#1A2B26`
- Icon: 20x20px, margin right 12px
- Layout: Horizontal, align center
- Tap area: Full width

Delete Item:

- Color: `#E89B7F` (coral/red)

Tap State:

- Background: `#F5F7F6`

Cancel Button:

- Height: 48px
- Font: 16px, weight 600
- Color: `#4A9B8E`
- Border top: 1px solid `#E0EBE8`
- Margin top: 8px

5. Topic-Based View

When user toggles to "Grid" view mode:

```
┌────────────────────────────────────────────────┐
│  SLEEP & RECOVERY                           8  │
│  ──────────────────────────────────────────────│
```

```
Morning check-in                                  ›
Sleep analysis                                    ›
Evening routine                                   ›
[View all 8 →]
```

```
DIGESTION & NUTRITION                            5
Meal logging                                      ›
Nutrition planning                                ›
[View all 5 →]
```

Topic Section:

- Background: `#FFFFFF`
- Border radius: 16px
- Padding: 16px
- Margin: 16px
- Shadow: `0 2px 8px rgba(0,0,0,0.06)`

Topic Header:

- Font: 15px, weight 600, uppercase
- Color: `#1A2B26`
- Count: Right-aligned, color `#A8B5B1`
- Padding bottom: 12px
- Border bottom: 2px solid `#E0EBE8`

Conversation Items (within topic):

- Simplified cards: Title + chevron only
- Height: 44px
- Font: 15px, weight 500
- Color: `#1A2B26`
- Border bottom: 1px solid `#F5F7F6` (between items)
- Icon: Category icon (16x16px) before title

Show More Button:

- Text: "View all [count] →"
- Font: 14px, weight 600
- Color: `#4A9B8E`
- Padding: 12px 0
- Text align: center
- Background: transparent
- Tap shows expanded list

Topic Categories:

1. Sleep & Recovery
2. Digestion & Nutrition
3. Stress & Mental Health

4. Energy & Vitality
5. Constitution & Balance
6. Symptoms & Concerns
7. Protocols & Practices
8. General

Empty Topics:

- Not shown in list
- Or shown collapsed with gray styling

6. Empty States

No Conversations Yet:

```
┌──────────────────────────────────────────────────────────┐
│                                                          │

└──────────────────────────────────────────────────────────┘
```

Specifications:

- Full height centering
- Padding: 80px 40px

Icon:

- Size: 100x100px
- Color: `#7AB8AC` at 30% opacity
- Margin bottom: 24px

Title:

- Font: 18px, weight 600
- Color: `#1A2B26`
- Margin bottom: 8px

Description:

- Font: 15px, weight 400
- Color: `#5A6B66`
- Line height: 22px
- Max width: 280px
- Margin bottom: 24px

CTA Button:

- Background: `#4A9B8E`
- Color: `#FFFFFF`

- Border radius: 8px
- Padding: 12px 24px
- Font: 15px, weight 600

No Search Results:

```
[Search Icon]

No conversations found for
"digestion issues"

Try different keywords or
clear your filters

[Clear Search]
```

Similar styling, search-specific messaging.

7. Loading States

Initial Load:

```
[Animated Lotus Spinner]

Loading your conversations...
```

Skeleton Cards (alternative):

- Gray placeholder blocks
- Shimmer animation left to right
- Same card dimensions
- Shows 3-5 skeleton cards
- Duration: 300ms animation

Infinite Scroll Loading:

```
Loading more...
[Spinner]
```

- Appears at bottom when scrolling
- Spinner: 20x20px, color `#4A9B8E`

8. Search Results View

Results Header:

```
┌──────────────────────────────────────────────────────────┐
│  12 results for "digestion"                [Clear]       │
└──────────────────────────────────────────────────────────┘
```

Specifications:

- Background: `#F8FAFB`
- Padding: 12px 16px
- Border bottom: 1px solid `#E0EBE8`
- Font: 14px, weight 500
- Color: `#5A6B66`

Highlighted Search Terms:

- In conversation titles
- Background: `#FFF9F0` (warm highlight)
- Font weight: 600

Grouped Results:

- Can optionally group by: Relevance, Date, Type
- User can toggle grouping

9. Pull-to-Refresh

Visual:

- Pull distance: 80px
- Haptic feedback on release
- Lotus icon rotates during refresh
- Duration: minimum 500ms

Refresh Indicator:

- Size: 32x32px
- Color: `#4A9B8E`
- Position: Top center
- Animation: Rotation + scale pulse

10. Scroll Behavior

Features:

- Smooth momentum scrolling
- Infinite scroll (load more on reach bottom)
- Maintain scroll position on back/return
- "Scroll to top" button appears after 3 screens down

Scroll to Top Button:

```
┌
```

```
                                                    [↑]
```

- Size: 48x48px circle
- Background: `#4A9B8E`
- Icon: ↑ arrow, 24x24px, white
- Position: Fixed bottom-right, 16px from edge
- Shadow: `0 4px 12px rgba(74, 155, 142, 0.3)`
- Fade in/out on scroll threshold
- Smooth scroll animation to top (500ms)

Action Details

Share with Practitioner

Modal:

```

Interactions & Animations

Card Entrance

- Fade + slide from bottom
- Duration: 300ms
- Easing: ease-out
- Stagger: 50ms between cards

Swipe Actions

- Elastic spring animation
- Haptic feedback on threshold
- Spring back if incomplete
- Auto-complete if full swipe

View Mode Toggle

- Crossfade: 400ms
- Maintain scroll position if possible
- Show loading state briefly

Search

- Results appear with fade: 200ms
- Highlight animation on matched terms
- Smooth height expansion

Long Press Menu

- Scale up from card center: 200ms
- Backdrop blur appears
- Haptic feedback on trigger

Pull to Refresh

- Lotus icon rotates during pull
- Scale animation on release
- Haptic feedback on release

Desktop Adaptations

└──────────────────┴──────────────────────────────┘
```

Sidebar:

- Width: 320px (can be resized 280-400px)
- Same components as mobile
- Smaller cards (compact mode)
- Scroll independent of detail

Detail View:

- Shows conversation when one selected
- Full chat interface
- Can have split view: list + detail simultaneously

Responsive Breakpoints:

- Mobile: < 768px (full screen list)
- Tablet: 768px - 1024px (optional split view)
- Desktop: > 1024px (split view recommended)

Accessibility

VoiceOver Support

- Cards: "Check-in, Morning check-in, 7:30 AM, button"
- Swipe actions announced
- Long press menu items clearly labeled
- Search input: "Search conversations, text field"

Keyboard Navigation

- Tab through cards
- Enter to open
- Arrow keys in menus
- Cmd+F for search

Color Contrast

- All text: WCAG AA minimum (4.5:1)
- Interactive elements clearly visible
- Focus indicators: 2px solid `#4A9B8E`

Touch Targets

- Minimum: 44x44px
- Swipe sensitive area: 60px from edge
- Long press timeout: 500ms

Dynamic Type

- Respect user text size preferences
- Layout adjusts gracefully
- Maximum +3 size categories supported

Reduced Motion

- Disable complex animations
- Keep essential transitions only
- Instant state changes

Performance Considerations

Optimization

- Lazy load conversations (20 at a time)
- Virtual scrolling for long lists
- Image thumbnails cached
- Search debounced (300ms)
- Semantic search uses local cache

Caching Strategy

- Recent 50 conversations: Local DB
- Search results: 5 minutes
- Topic groupings: 1 hour
- Full conversation: On-demand

Network

- Optimistic updates for actions
- Offline mode: Show cached conversations
- Sync when back online
- Background refresh

Error States

Network Error

```
┌──────────────────────────────────────────────────────────┐
│  [Error Icon]                                            │
│                                                          │
│  Couldn't load conversations                             │
│                                                          │
│  Check your connection and try again                     │
│                                                          │
│              [Retry]                                     │
└──────────────────────────────────────────────────────────┘
```

Action Failed

Toast notification:

```
┌──────────────────────────────────────┐
│  ⚠️  Couldn't complete action        │
│     [Try again]  [Dismiss]           │
└──────────────────────────────────────┘
```

- Position: Top of screen
- Duration: 4 seconds
- Swipe up to dismiss
- Tap to retry

State Management

View State

```
{
  viewMode: 'chronological' | 'topics',
  searchQuery: string,
  activeFilters: string[],
  selectedConversation: string | null,
  pinnedConversations: string[],
  favoritedConversations: string[],
  scrollPosition: number,
  isLoading: boolean,
  error: Error | null
}
```

Conversation State

```
{
  id: string,
  type: 'check-in' | 'deep-dive' | 'casual-chat',
  title: string,
  timestamp: Date,
  messageCount: number,
  isCompleted: boolean,
  isPinned: boolean,
  isFavorited: boolean,
  hasUnread: boolean,
  topics: string[],
  tags: string[],
  notes: string,
  lastMessage: string
}
```

Component Library for Development

Core Components

1. `ConversationCard` - Main list item
2. `SearchBar` - Smart search input
3. `FilterPills` - Category filters
4. `SectionHeader` - Time/topic headers
5. `SwipeActions` - Swipeable actions
6. `LongPressMenu` - Full action menu
7. `TopicSection` - Topic-grouped view
8. `EmptyState` - No results states
9. `LoadingState` - Skeletons/spinners

Modals

1. `ShareModal` - Share with practitioner
2. `NotesModal` - Add notes/tags
3. `ExportModal` - Export options
4. `DeleteConfirm` - Deletion alert

API Endpoints

```
GET /conversations
  ?mode=chronological|topics
  &search=string
  &filters[]=check-in
  &limit=20
  &offset=0

GET /conversations/:id

POST /conversations/:id/pin

POST /conversations/:id/favorite

POST /conversations/:id/share
  body: { practitionerId, note, includeMetrics, includeImages
}

PATCH /conversations/:id/notes
  body: { notes, tags }

POST /conversations/:id/export
  body: { format, includes }

DELETE /conversations/:id

POST /conversations/:id/continue
```

Testing Checklist

- [ ] All swipe actions work smoothly
- [ ] Long press menu appears correctly
- [ ] Search returns relevant results
- [ ] Semantic search interprets queries
- [ ] View mode toggle transitions smoothly
- [ ] Topic grouping accurate
- [ ] All modals function properly
- [ ] Export generates correct formats
- [ ] Delete confirmation works
- [ ] Pull to refresh updates list

- [ ] Infinite scroll loads more
- [ ] Pinned items stay at top
- [ ] Favorited items marked correctly
- [ ] Empty states display properly
- [ ] Loading states smooth
- [ ] Error states helpful
- [ ] Accessibility features work
- [ ] Keyboard navigation functional
- [ ] VoiceOver clear and accurate
- [ ] Touch targets adequate
- [ ] Performance acceptable
- [ ] Works offline with cache
- [ ] Desktop layout responsive

Design Files Deliverables

For Figma:

1. Component library (all states)
2. Conversation card variants
3. Modal designs
4. Empty/loading/error states
5. Topic view layouts
6. Interaction prototypes
7. Desktop responsive layouts
8. Icon set for categories
9. Animation specifications
10. Dark mode (if applicable)

Implementation Priority

Phase 1 (MVP):

- Basic chronological list
- Simple search
- Open conversation
- Delete action
- Pin to top

Phase 2:

- Swipe actions (all)
- Long press menu
- Filters
- Topic-based view

Phase 3:

- Semantic search
- Share with practitioner
- Notes/tags

- Export
- Continue thread

Phase 4:

- Advanced filtering
- Detailed analytics
- Batch actions
- Custom views

This specification provides a complete, production-ready design for the Chat History section that elegantly handles all your requirements while maintaining visual simplicity and user-friendliness.
