AyuAware Onboarding - Visual Design Specification

Design Philosophy

The onboarding happens entirely within the chat interface, but uses special message types that are visually distinct from regular conversation. These elements should feel **guided and intentional** while maintaining the warmth and approachability of the chat experience.

Color Palette

Primary Colors

- **Twin Message Background**: `#F8FAFB` (very light teal-gray)
- **User Message Background**: `#E8F4F3` (soft teal, slightly more saturated)
- **Accent/CTA**: `#4A9B8E` (teal from your gradient)
- **Secondary Accent**: `#7AB8AC` (lighter teal)

Onboarding Specials

- **Onboarding Card Background**: `#FFFFFF` with subtle shadow
- **Onboarding Card Border**: `#E0EBE8` (very subtle teal hint)
- **Progress Indicator**: `#4A9B8E` (active) / `#E0EBE8` (inactive)
- **Celebration Color**: `#F8C471` (warm gold for checkmarks/celebrations)

Typography Colors

- **Primary Text**: `#1A2B26` (deep green-black)
- **Secondary Text**: `#5A6B66` (medium gray-green)
- **Disabled Text**: `#A8B5B1` (light gray)

Typography Scale

Message Text

- **Twin Messages**: SF Pro / Inter, 16px, line-height 24px, weight 400
- **User Messages**: SF Pro / Inter, 16px, line-height 24px, weight 400
- **Emphasis in messages**: weight 600 (not bold, just semibold)

Special Elements

- **Card Titles**: 18px, weight 600, letter-spacing -0.2px
- **Card Body**: 15px, weight 400, line-height 22px
- **Button Text**: 15px, weight 600
- **Small Labels**: 13px, weight 500, letter-spacing 0.2px, uppercase
- **Progress Text**: 14px, weight 500

Component Designs

1. Welcome Message (Twin Introduction)

```
[Twin Avatar]
 🪷 (with subtle glow animation)

Namaste! I'm your Ayurvedic
Digital Twin.

Think of me as a companion who
learns your body's unique patterns
and helps you maintain balance.

Before we begin, let me show you
how we'll work together.

Timestamp: 9:41 AM
```

Specifications:

- Background: `#F8FAFB`
- Border radius: 16px (top-right), 16px (bottom-left & bottom-right), 4px (top-left - the chat tail)
- Padding: 16px
- Max width: 85% of screen width
- Margin: 12px from edges
- Avatar: 36x36px circle, positioned top-left
- Glow animation: Subtle 2s pulse between opacity 0.3-0.7

2. Interactive Intro Carousel Cards

```
[Twin Avatar]

[Illustration Area]
  Icon/Visual
     120x120
```

```
        I Learn From You

   I observe patterns from your
   wearable devices, lab results,
   photos, and daily check-ins to
   understand your unique body.

   ● ○ ○            [Skip Intro]

← Swipe to see more

Timestamp: 9:41 AM
```

Card Specifications:

- Card Background: `#FFFFFF`
- Card Border: 1px solid `#E0EBE8`
- Card Shadow: `0 2px 8px rgba(74, 155, 142, 0.08)`
- Card Border Radius: 12px
- Card Padding: 24px
- Card Width: 90% of screen width
- Spacing between cards in carousel: 16px

Illustration Area:

- Centered, 120x120px
- Simple line art style matching the lotus icon
- Colors: `#4A9B8E` primary, `#7AB8AC` accents

Title (Card):

- Font size: 18px
- Weight: 600
- Color: `#1A2B26`
- Margin top: 16px from illustration
- Margin bottom: 12px

Body Text (Card):

- Font size: 15px
- Weight: 400
- Line height: 22px
- Color: `#5A6B66`

Progress Dots:

- Size: 8x8px circles
- Active: `#4A9B8E`, solid
- Inactive: `#E0EBE8`, solid
- Spacing: 8px between dots
- Position: Bottom left of card

Skip Button:

- Style: Text button only, no background
- Font size: 14px
- Weight: 600
- Color: `#7AB8AC`
- Position: Bottom right of card
- Tap area: 44x44px minimum

Swipe Indicator:

- Font size: 13px
- Weight: 400
- Color: `#A8B5B1`
- With arrow icon ← on left
- Fades out after first swipe

Three Cards Content:

Card 1: I Learn From You

- Icon: Connected nodes (wearables, photos, notes)
- Colors: Teal gradient

Card 2: I Understand You

- Icon: Three dosha symbols in harmony
- Colors: Warm gradient (teal to gold)

Card 3: I Guide You

- Icon: Path/journey visualization
- Colors: Cool gradient (teal to light blue)

3. Permission Request Messages

```
[Twin Avatar]

To give you the most accurate guidance,
I'd like to:

📱 Send daily check-ins

Best time for you?

Morning   Afternoon   Evening

⌚ Connect wearable devices
```

```
This helps me understand your sleep
and activity patterns

Set up now        Maybe later

Timestamp: 9:41 AM
```

Permission Card Specifications:

- Same as carousel cards but stacked vertically
- Spacing between cards: 12px
- Each card has its own internal action buttons

Icon Styling:

- Size: 24x24px
- Position: Inline with title, 8px left margin
- Can use SF Symbols or custom icons

Time Selection Buttons (Pill Style):

- Background: `#FFFFFF`
- Border: 1.5px solid `#E0EBE8`
- Border radius: 20px (full pill)
- Padding: 8px 16px
- Font size: 14px
- Weight: 600
- Color: `#5A6B66`
- **Selected state**:
  - Background: `#E8F4F3`
  - Border: 1.5px solid `#4A9B8E`
  - Color: `#4A9B8E`

Action Buttons (Primary/Secondary):

- **Primary** ("Set up now"):
  - Background: `#4A9B8E`
  - Color: `#FFFFFF`
  - Border radius: 8px
  - Padding: 12px 24px
  - Font size: 15px
  - Weight: 600
  - Shadow: `0 2px 4px rgba(74, 155, 142, 0.2)`
- **Secondary** ("Maybe later"):
  - Background: `#FFFFFF`
  - Color: `#5A6B66`
  - Border: 1.5px solid `#E0EBE8`

- Border radius: 8px
- Padding: 12px 24px
- Font size: 15px
- Weight: 600

Button Spacing:

- Gap between buttons: 12px
- Buttons span full width of card with equal flex

4. Quick Prakriti Preview Questions

```
[Twin Avatar]

Now, let's get acquainted! I have 5 quick
questions that will give us both a sense
of your natural constitution.

These aren't tests - there are no right
answers. Just choose what feels most
true for you.

Ready? 🪷

Timestamp: 9:41 AM
```

```
Progress: Question 1 of 5  ━━━━━━━━━━○○○○○○○○○○
```

```
[Twin Avatar]

Which best describes your natural
body frame?

    [Visual: Slim figure]

    Light & Slender
    Difficulty gaining weight
```

```
[Visual: Medium figure]

Moderate & Athletic
Gains/loses weight evenly

[Visual: Solid figure]

Solid & Sturdy
Gains weight easily

Timestamp: 9:42 AM
```

Progress Bar Specifications:

- Container: Full width, 44px height, sticky at top
- Background: `#F8FAFB`
- Border bottom: 1px solid `#E0EBE8`
- Padding: 12px 16px

Progress Text:

- Font size: 14px
- Weight: 500
- Color: `#5A6B66`
- Position: Left side

Progress Visual:

- Style: Segmented bar (not continuous)
- Width: 60% of container
- Height: 4px
- Position: Right side, vertically centered
- Active segment: `#4A9B8E`
- Inactive segment: `#E0EBE8`
- Gap between segments: 4px
- Border radius: 2px per segment

Option Card Specifications:

- Background: `#FFFFFF`
- Border: 2px solid `#E0EBE8`
- Border radius: 12px
- Padding: 20px
- Margin: 8px 0
- Tap area: Full card

Selected State:

- Border: 2px solid `#4A9B8E`
- Background: `#F0F9F7` (very subtle teal tint)
- Checkmark: Top right corner, 20x20px circle
  - Background: `#4A9B8E`
  - Icon: White checkmark ✓

Visual Illustration:

- Style: Simple line art, minimalist
- Size: 80x100px
- Position: Top center of card
- Colors: `#7AB8AC` for figure outline
- Margin bottom: 12px

Option Title:

- Font size: 16px
- Weight: 600
- Color: `#1A2B26`
- Margin bottom: 4px

Option Description:

- Font size: 14px
- Weight: 400
- Color: `#5A6B66`
- Line height: 20px

Auto-advance:

- After selection, wait 400ms
- Smooth scroll animation to next question
- Previous answer appears in chat as user message

5. Constitution Reveal Card

```
┌──────────────────────────────────────────────────────────┐
│  [Twin Avatar]                                           │
│                                                          │
│  Fascinating! Based on these initial                     │
│  insights...                                             │
│                                                          │
│   ╔═══════════════════════════════════════╗              │
│   ╚═══════════════════════════════════════╝              │
```

```
[Dosha Visualization]

   Vata: 45%
   Pitta: 35%
   Kapha: 20%

You seem to have a strong
Vata influence with some
Pitta qualities

This is just our first impression.
The more we interact, the more
accurately I'll understand your
unique blueprint.

Would you like to:

🔍 Take complete assessment (15 min)

💬 Start with casual conversation

⏭️ Explore daily rhythms

Timestamp: 9:43 AM
```

Reveal Card Specifications:

- Same base styling as carousel cards
- Extra padding: 28px (more spacious for celebration)

Dosha Visualization:

- Style: Circular/radial chart or three overlapping circles
- Size: 180x180px
- Colors:

    - Vata: `#7AB8AC` (air/ether - light teal)
    - Pitta: `#E89B7F` (fire/water - warm coral)
    - Kapha: `#A3B899` (earth/water - earthy green)
- Animation: Gentle fade-in with scale (0.9 to 1.0 over 500ms)

Percentage Labels:

- Font size: 16px
- Weight: 600
- Colors: Match dosha colors
- Position: Below/beside visualization

Constitution Text:

- Font size: 18px
- Weight: 600
- Color: `#1A2B26`
- Line height: 26px
- Margin: 16px top and bottom
- Center aligned

Explanation Text:

- Font size: 15px
- Weight: 400
- Color: `#5A6B66`
- Line height: 22px
- Center aligned

Action Buttons (List Style):

- Background: `#FFFFFF`
- Border: 1.5px solid `#E0EBE8`
- Border radius: 12px
- Padding: 16px 20px
- Margin: 8px 0
- Full width
- **Hover/Press state**:
    - Background: `#F8FAFB`
    - Border: 1.5px solid `#4A9B8E`
    - Transform: scale(0.98) - subtle press feedback

Button Content:

- Icon: 24x24px, left aligned
- Text: 15px, weight 600, color `#1A2B26`
- Layout: Flexbox, align-items center, gap 12px

6. Completion Celebration

```
┌──────────────────────────────────────────────────────────┐
│  [Twin Avatar with glow]                                 │
│                                                          │
│  ✨ Great! We're all set up ✨                           │
│                                                          │
```

```
I'm here whenever you need guidance.
Just ask me anything!

Timestamp: 9:43 AM
```

Celebration Message:

- Same styling as regular Twin message
- Add sparkle emojis or icon
- Avatar has more pronounced glow
- Slightly larger text (17px instead of 16px)
- Optional: Confetti animation overlay (brief, 1-2 seconds)

Interaction Patterns

Tap Feedback

All tappable elements should have clear feedback:

- **Buttons**: Scale down to 0.96, duration 100ms
- **Cards**: Scale down to 0.98, duration 100ms
- **Pills**: Background color change immediately

Loading States

When waiting for Twin response:

- **Typing indicator**: Three animated dots
- Container: 44x44px
- Background: `#F8FAFB`
- Dots: 8x8px, `#7AB8AC`
- Animation: Wave pattern, 1.2s duration

Scrolling Behavior

- Auto-scroll to newest message
- Smooth scroll animation: 300ms ease-out
- For long cards: Card tops align with safe area

Error States

If permission denied or action fails:

```
[Twin Avatar]

No problem! You can always set this up
later in Settings.

Let's continue...
```

```
Timestamp: 9:43 AM
```

Animation Timings

- **Card entrance**: 400ms ease-out, slight scale + fade
- **Progress advance**: 300ms ease-in-out
- **Selection feedback**: 100ms immediate, then 400ms to next state
- **Auto-scroll**: 300ms ease-out
- **Glow pulse**: 2000ms infinite, ease-in-out

Accessibility

Text Contrast

All text meets WCAG AA standards:

- Primary text on white: 4.5:1 minimum
- Secondary text on white: 4.5:1 minimum
- Button text on teal: 4.5:1 minimum

Touch Targets

- Minimum: 44x44px (iOS HIG standard)
- Preferred: 48x48px for primary actions

Voice Over Support

- All buttons have descriptive labels
- Progress indicator announces "Question 1 of 5"
- Cards announce "Swipeable carousel, item 1 of 3"

Responsive Considerations

iPhone SE (375px width)

- Card padding: 20px (reduce from 24px)
- Font sizes: Same (don't reduce)
- Buttons: Stack vertically if needed
- Illustration size: 100x100px (reduce from 120x120px)

iPhone Pro Max (428px width)

- Use standard sizes
- Max card width: 90% (prevents too wide)

Tablet/iPad

- Max message width: 600px
- Center messages in conversation
- Increase padding for more breathing room

Development Notes

Reusable Components

These elements can be built as:

1. `OnboardingMessage` - Base wrapper for Twin messages with special styling
2. `CarouselCard` - Swipeable card component
3. `PermissionCard` - Card with action buttons
4. `QuickQuestion` - Visual option selector
5. `ConstitutionReveal` - Result card with visualization
6. `ActionButtons` - List of tappable actions

State Management

Track onboarding progress:

```
{
  currentStep: 'intro' | 'permissions' | 'quick-prakriti' |
'complete',
  introCarouselIndex: 0,
  permissionsGranted: {
    notifications: false,
    notificationTime: null,
    healthData: false
  },
  quickPrakritiAnswers: [],
  initialConstitution: null
}
```

Animations

Consider using:

- React Native Reanimated for smooth 60fps animations
- Lottie for complex illustrations (dosha visualization)
- Simple CSS/React Native Animated for most transitions

Next Steps for Design Team

1. **Create illustration set**:
    - 3 carousel card illustrations
    - Body frame illustrations for prakriti questions
    - Dosha visualization chart
    - Celebration/success state visuals
2. **Build component library in Figma**:
    - All message types as variants

    - Button styles (primary, secondary, pill)
    - Card styles with states (default, selected, error)
    - Icon set for all actions
3. **Create interactive prototype**:
    - Show full onboarding flow
    - Include all animations and transitions
    - Test on actual device sizes
4. **Document edge cases**:
    - What happens if user goes back?
    - How do we handle skipped sections?
    - What if user closes app mid-onboarding?
