AyuAware Profile & Settings Section - Complete UI/UX Specification

Overview

The Profile & Settings section is the **User Command Center** - where users view and manage their Ayurvedic profile, track their constitutional journey, control app settings, and manage their account. This section should make users feel deeply understood while giving them control over their experience.

Design Philosophy

Core Principles

1. **Constitutional Identity**: The user's Prakriti and Vikriti are central to their profile, not hidden in settings
2. **Twin Integration**: Even settings feel guided and personalized
3. **Journey Tracking**: Show constitutional evolution over time
4. **Privacy Control**: Users control their data with transparency
5. **Practitioner Ready**: Easy connection to Ayurvedic practitioners
6. **Accessibility**: Settings for all user needs and preferences

YOUR PRAKRITI (Birth Constitution)
Assessed Dec 15, 2025                    →

PITTA 55%  ▓▓▓
```

You are primarily Pitta with secondary Vata. Your natural strengths are clarity, drive, focus, and intellectual intensity.

YOUR VIKRITI (Current State)
Last assessed Jan 28, 2026 →

PITTA 45%
VATA 40% ↑
KAPHA 15%

⚠️ Vata is elevated (+15% from baseline)

This elevation may be causing:
- Sleep difficulties
- Restlessness and anxiety
- Variable digestion

Your active protocols are addressing this.

[🪷 Twin Avatar]

  This is your birth constitution - the
  unique blend of doshas you were born with.
  It doesn't change, but understanding it
  helps us bring you back to balance.

  🔥 YOU ARE PITTA-VATA

  [Dosha Wheel Visualization]

            PITTA

Implementation Priority

1. **Phase 1**: Enhance header with Twin, add Vikriti alongside Prakriti
2. **Phase 2**: Build detailed Prakriti/Vikriti report views
3. **Phase 3**: Add constitutional history tracking
4. **Phase 4**: Expand notification settings
5. **Phase 5**: Build practitioner connection features
6. **Phase 6**: Add privacy controls and data export
7. **Phase 7**: Implement subscription management
